THE NATIONAL CONFERENCE CENTER OFFERS FREE MEETING ROOM BROADBAND ACCESS

LEESBURG, VA – Whoever said you can't get anything for free must not have heard of The National Conference Center (NCC). For a limited time, groups booking meetings through 2010 will be able to have free internet access at a facility that offers unparalleled bandwidth capabilities as part of their training package. A leader in creating effective learning environments, NCC provides learning and performance professionals with the highest standards of quality and efficiency for training programs.

“We know that during this economic downturn our clients are being careful with their bottom line. If they are continuing to meet and train their staffs, we need to be mindful of their meeting requirements and feel that internet accessibility is a value-added benefit,” said Director of Sales and Marketing Eric Whitson. “We have a unique advantage of being able to handle a high bandwidth to accommodate heavy connectivity needs, which in itself is an added value to our customers' meeting experience.”

The NCC offers everything a planner needs to succeed including:

- 265,000 sq.ft. of meeting space and 250 meeting rooms offering flexible arrangements for groups 4 to 1800 attendees.
- Professional conference support team
- Meeting rooms with high-speed internet access, climate control and advanced audiovisual equipment.

- 12 miles from Dulles International Airport and 45 miles from Washington, DC.
- Complete Meeting Package includes fully equipped conference rooms and break-out rooms, standard AV package, three meals daily, continuous refreshment break, guest room accommodations.
- 917 guest rooms – including 78 suites – equipped with complimentary Internet access, workstations with ergonomic chairs, flat screen TVs and more. Amenities include dining room, sports bar, fully-equipped fitness center and Starbucks Coffee.
- Green Seal certified facility.

There is a growing need for good internet connectivity during meetings at hotels. It can often be hard to find, and expensive, thus being cost prohibitive. NCC not only has the advantage of the high bandwidth in the meeting rooms, but offers high-speed access in each of its guest rooms at no added charge.

Located in Northern Virginia 12 miles from Dulles International Airport and 35 miles from Washington, D.C., the National Conference Center (NCC) is one of the largest and most comprehensive conference centers in the nation. With 917 guest rooms and over 265,000 square feet of meeting space, NCC has become a hub for productive meetings. For information call 877-363-3108 or visit www.conferencecenter.com.
